

Shifting Adapter-Plus

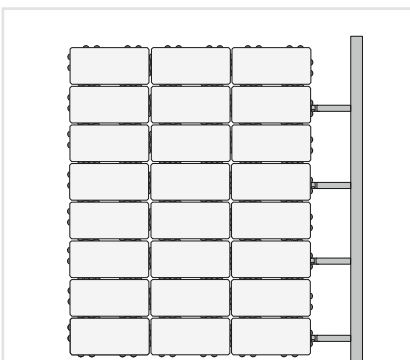

Shifts particularly challenging stones

- ✓ Shifts very demanding shear resistant stones
- ✓ patented technology
- ✓ moving stones one by one
- ✓ gentle on both materials, stones and clamp
- ✓ easy to use
- ✓ offset size up to 20 cm
- ✓ retrofittable for P01, P12, P02, HP30

Standard

Shifting at the same time

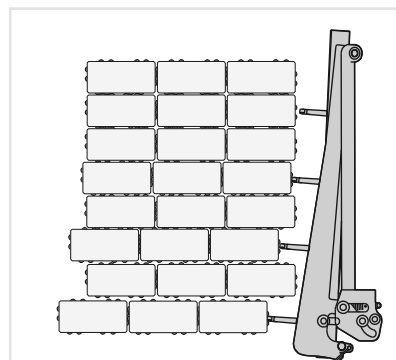

Shifting force is split

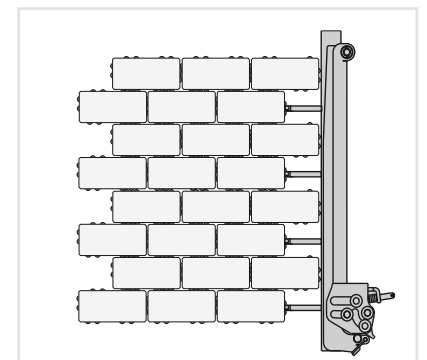

Too large spacers prevent simultaneous shifting

Shifting Adapter-Plus

Moving one by one

Shifting force is concentrated on **individual rows**

Large spacers are overcome and the stone rows moved
